The Network Innovation

dLAN® 500
AVtriple+

Integrated socket

3x LAN Ethernet

500 Mbit/s

Triple the networking perfmorance

Today, the Internet is everywhere: computers, game consoles and consumer electronics devices need a fast and stable Internet connection for work, information and entertainment. dLAN® from devolo is the ideal solution: as fast and easy as a cable network, as flexible as WLAN. The secure networking via the power line makes every power outlet an Internet access point. Now, you can connect even as many as three network-compatible devices to the dLAN® 500 AVtriple+, making it ideal for the living room and home office. The integrated socket ensures that no electrical outlet goes to waste. Setting it up could not be easier – just plug it in, connect the devices, and you're done.

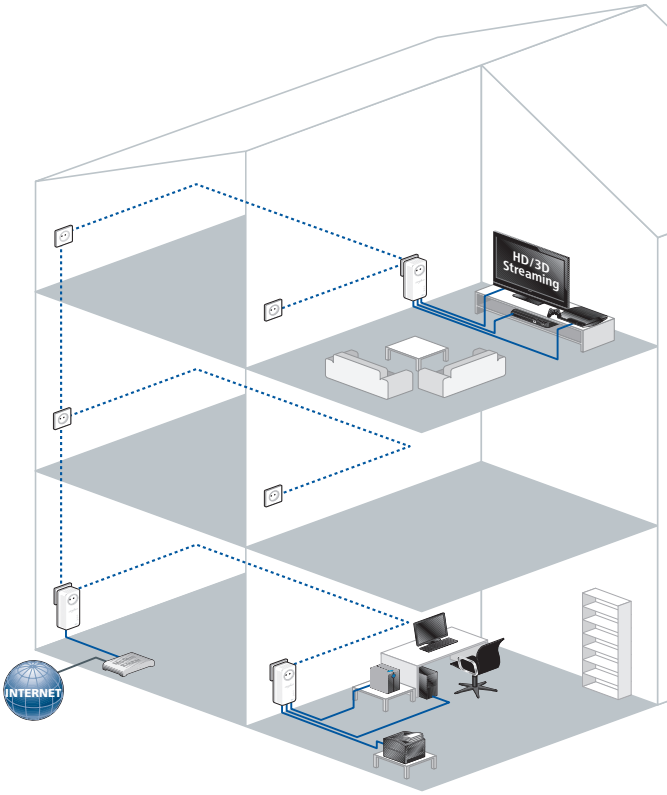
Direct connection of up to 3 devices with the integrated Gigabit switch

dLAN® 500 AVtriple+

dLAN® 500 AVtriple+
Starter Kit

Highlights:

- High-speed home network via the household power line with transmission rates of up to 500 Mbps
- Ideal for all types of data transmission in the home network, broadband Internet throughout the home, 3D entertainment and multimedia streaming in every room, multi-room entertainment
- Integrated Gigabit switch for connecting up to three network-compatible devices
- Network-compatible IT devices (e.g. computers, printers, NAS hard drives) or consumer electronics devices (e.g. TVs, game consoles, set-top boxes) are connected to each other and to the Internet in no time
- Integrated electrical socket for connecting end devices or power strips—no power outlet goes to waste
- Integrated mains filter for maximum transmission quality in the dLAN® network
- No configuration is necessary – plug the adapter into the power outlet, connect it to any end device via the network cable and you are ready to go!
- Automatic data prioritisation (Quality of Service) ensures interference-free video transmission and Internet phone calls, even if more than one person is surfing the Internet at the same time
- With the automatic phase shift feature, it works in every room desired, in every apartment, in every building: whether new or old – up to a cable length of 300 metres
- Security at the touch of a button – secure AES encryption is activated very easily at the touch of a button on the adapter
- Power consumption of just 0.5 watts in standby mode: the adapter reduces its energy consumption automatically by over 90 percent
- Easy setup possible with no need for a computer. Easy, customised monitoring and configuration of the dLAN® home network is also provided by the intuitive dLAN® Cockpit software
- Compatible with dLAN® 500 and 200 AV adapters (HomePlug AV)
- 3-year warranty, as unit is designed, tested and certified in Germany



Works with:
Microsoft Windows® XP 32 bit, Vista 32/64 bit, 7 32/64 bit, Mac OS® X, Linux®

Compatibility:
dLAN® 500 AVmini
dLAN® 500 AVplus
dLAN® 500 AVtriple+
dLAN® 200 AVsmart+
dLAN® 200 AVplus
dLAN® 200 AVeasy/AVmini
dLAN® 200 AV Wireless G/N
dLAN® 200 AV USB extender
dLAN® TV Sat PC
